GENERAL INFORMATION

Our Location

Our Nursery is on Valley Road just off from New Hampshire Route #115 (one mile from the U. S. Route #2 intersection) in the town of Jefferson, N. H. We are in the heart of the famous White Mountains Region. At the Nursery the elevation is 1,100 feet, making it one of the coldest spots in New England, practically in the shadow of Mount Washington.

The gardens will be open to visitors on Saturdays and Sundays, only, and by special appointment. We shall be very pleased to show you our hardy field-grown plants.

How to Order

When ordering please name both the genus (boldface capitalized word) and the variety.

Kindly indicate two or three substitutes, as we cannot be sure of always having a supply. In case of crop failure we will refund your money, or place on back order—as you prefer. Orders will be filled in same rotation as received. Please order early.

Orders will be sent parcel post unless otherwise specified. A packing charge of 25c for each order must accompany your remittance.

Purchaser pays all transportation charges. Add 15% of total order if to be delivered east of the Mississippi River, and 25% if west of that river.

Minimum order: \$3.00. Make checks payable to: Donald J. Lennox. Full remittance must accompany all orders.

Our shipping season will normally be May 1 to June 15, and the month of September.

Fall planting is recommended for all early spring flowering plants.

All plants listed are offered subject to being unsold upon receipt of order.

A State Inspection Certificate will be attached to each shipment.

Our plants are all grown outdoors in field conditions in an extremely rugged climate and should be full of real vitality for your gardens.

This listing good to January 1, 1963.

Guarantee

We endeavor to send out only strong young plants in good condition. Our responsibility ends upon delivery in good condition to the carrier. We will replace equal value for plants dead upon arrival, if notified within 5 days of delivery.

HARDY ROCK GARDEN AND ALPINE PLANTS

- ACHILLEA** Good easy plants for the rock garden. Happy in poor soil and full sun.
- Millefolium Crimson Beauty** (15") A deep crimson pink form of the common yarrow. A good border subject50
- Tomentosa** (6") The flat-topped golden flower heads cover the plants in mid-summer. The creeping plant is always a mat of beautiful soft gray green foliage. Lovely when frosty50
- Umbellata** (6") A dwarf non-spreader with cream colored flower heads in June50
- AJUGA** Indispensable where a heavy leaved ground cover is needed in sun or shade, on any soil. The flowers are attractive, too.
- Brockbanki** (6") Bronzy foliage and blue flowers. Not a fast spreader50
- Genevensis Alba** (6") White flowered form of the familiar ground cover50
- Genevensis Pink Spires** (6") A choice ajuga with really pink blooms50
- Metallica Crispa** (6") Bronze green foliage and blue spires. Striking red purple foliage in winter50
- Variegata** (4") Very attractive variegated foliage in cream, pink and green. Blue spikes of flowers50
- ALCHEMILLA Pubescens** (8") A very different foliage plant with large roundish scalloped leaves, and fluffy green flowers50
- ALLIUM** The flowering onions are hardy and easy subjects. The attractive blooms are long lasting in any sunny situation.
- Cyaneum** (4") Tiny grass-like Allium with fluffy heads of true blue stars in July50
- Mt. Cenis** (10") Rosy heads of bloom in July. Sun50
- Schoenoprasum** (12") (Chives) Not only are they good to eat, but a real show-piece when in bloom. Good for cutting50
- Senescens Glaucum** (8") Gray foliage beautifully twisted and curled. Umbels of pink bloom in mid-summer50
- ALYSSUM** Lovely plants of gray which look best creeping down over a large rock surface.
- Argenteum** (10") Blooms late with billowing masses of tiny yellow flowers50
- Dudley Neville** (12") Lovely light yellow form of the popular yellow alyssum of spring rockeries75
- ANDROSACE** Perfectly lovely alpine plants, easy to grow in well drained sunny locations. They like a little lime in the soil make-up.
- Sarmentosa** (6") Large androsace with pretty rosettes of gray green foliage sending up flat heads of pink primula-like blooms in early summer. Easy in sun50

Sarmentosa Chumbyi (3") Woolly rosettes that send up 3" umbrellas of clustered clear pink flowers. A great charmer in May. Likes a bit of lime and good drainage, but is perfectly hardy	.50
Sarmentosa Watkinsi (5") Large green rosettes; brilliant rosy flowers. Himalayas	.50
Sempervivoides (3") In the sarmentosa group. Smooth leaved. Lilac flowers in June	.75
ANEMONE Sylvestris (12") Beautiful snowy cups in June make this one of the springtime treasures. Part shade, leafmold and a touch of lime	.75
Nemerosa Robinsoni (6") Beautiful soft blue flowered anemone. Early spring. Part shade. Lime	.50
ANTENNARIA Dioica Rosea (2") A grand ground cover for a dry and lean spot. Delicate pink "pussy toes" in spring	.50
Rosea (6") Red "pussy toes" with white centers. Excellent ground cover in hot, dry soil	.50
ANTHEMIS Aizoon (Achillea Ageratifolia) (6") Gray mats. White flowers in June	.50
ANTHYLLIS Montana Rubra (6") Rare, hardy and easy. Heads of pea-like flowers in red	.50
AQUILEGIA Akitensis (8") Blue with white center. Dwarf. Large flowers. From Japan	.75
Canadensis (15") Our own wild columbine, so loved by the hummingbirds. Red flowers with yellow centers	.50
Edelweiss (10") A charming snow white columbine for the rock garden	.50
Nana Alba (10") Pure white dancing columbines	.50
ARABIS Early spring blooming, and among the easiest to grow anywhere in the sun. The foliage is especially nice.	
Albida Fl. Pl. (8") Beautiful double arabis. Gray green foliage. Prolific. Sun	.75
Alpina Snowcap (6") Dwarf, pure white variety. Very fine	.75
Blepharophylla Spring Charm (6") Reddish purple and beautiful. Compact	.75
Sturi (4") A rare and compact arabis with white flowers. Very good	.75
ARENARIA Low mat forming hardy plants with appealing little flowers. Make up some of the best and easiest rock plants.	
Larcifolia (6") Dark green finely cut foliage in mats. White flowers in June	.50
Montana (4") A most beautiful rock plant for that choice spot. Lovely upward-facing white cups in profusion	.75
Verna Caespitosa (1") A real ground hugger in bright green, with tiny white pinheads for flowers. Between stepping stones	.50
Verna Caespitosa Aurea (1") Beautiful golden green moss. Tiny white flowers. Rare	.50

ARMERIA <i>Labradorica</i> (6")	Shell pink tufts of bloom on wiry stems over the tight mounds of green	.75
<i>Lauchena</i> (6")	One of the best rock plants; producing myriads of rose crimson heads on wiry stems above the neat cushion of fine grassy leaves	.50
ARTEMISIA <i>Schmidtiana Nana</i> (12")	Perfect domes of lovely soft gray foliage. Wonderful for accents in the rock garden	.50
ASTER	Many really choice rock garden subjects are included. Require good drainage in full sun in any kind of soil.	
<i>Alpinus</i> (6-10")	Large aster flowers in shades of lavender and blue. June	.50
<i>Alpinus Alba</i> (6")	White flowered form of the above ..	.50
<i>Alpinus Goliath</i> (8")	One of the largest and most beautiful aster flowers. A true alpine	.75
<i>Alpinus Spring Charm</i> (4")	Large lavender pink asters. Choice	.50
<i>Farrerri</i> (12")	Beautiful aster. Mauve with golden center. China	.50
<i>Lichiangensis</i> (3")	Farrer calls it the most exquisite high alpine aster ever seen. From neat basal rosettes come 3" stems with large single imperial purple asters of great charm. Give good drainage and plenty of humus	.75
AUBRIETA	The many softly blending shades of aubrieta on low carpeting plants are a joy in the early garden. Easy and hardy.	
<i>Borsch's White</i>		.50
<i>Gloriosa</i>		.50
<i>Magenta Glory</i>		.50
<i>Monarch</i> .	Selected colors: pink, deep pink, and our own selections grown from cuttings and divisions	.50
<i>Purple Robe</i> (3")	A good purple blue color	.50
BELLIS <i>Shortcake</i> (4")	Profuse small pink daisies all summer. Hardy and easy. Sun	.50
BERGENIA <i>Cordifolia</i> (15")	Large round leathery leaves, nearly evergreen, send up astounding heads of saxifrage flowers in early spring. A showy and hardy plant	.75
BETONICA <i>Grandiflora</i> (12")	Large heads of purplish flowers rising above really attractive abundant leaves	.50
BRUNNERA <i>Macrophilla</i> (8")	Fine airy heads of tiny forget-me-nots. Large heart shaped leaves. Part shade. Acid soil	.50
CAMPANULA	Because of their great beauty and later blooming habits, the bellflowers are among our best loved rock garden subjects. Lime is appreciated.	
<i>Alliariaefolia</i> (18-24")	White flowered on spikes in July. A good border perennial	.75
<i>Carpatika Alba</i> (10")	The white flowering form of the Carpathian Harebell. Beautiful large white bells nearly all summer	.50
<i>Carpatika Blue</i> (10")	Many open blue saucers. Easy in drained position	.50

Cochlearifolia Miranda (3") Nodding light blue bells in great numbers	.75
Cochlearifolia Miranda (Lohbrunner form) (4") Light blue pendant bells. A treasure	.75
Linifolia (12") Handsome harebell from the Alps. Similar to the English harebell	.50
Petiolata (12") Large dark blue. Native of Alaska	.50
Pusilla (3") Pale blue nodding bells. June-July. The Alps	.50
Pusilla Alba (3") White form of Pusilla. Dainty and beautiful	.75
Rotundifolia (15") English Bluebells. Standard plant ..	.50
Sarmatica (10") Very lovely and easy. Large silvery blue bells	.75
CENTAUREA Montana Alba (15") The white flowered form of our old friend the Ragged Robin	.50
Montana Blue (15") Commonly known as Ragged Robin. Large blue shaggy blooms in profusion. A good border perennial	.50
CERASTIUM Alpinum Lanatum (2") Gray green wooly tufts with large white flowers. Likes very good drainage and full sun	.75
COREOPSIS Auriculata (6") Large golden yellow blooms. August	.50
CORYDALIS Lutea (10") Golden flowers on lovely fine foliage all summer. Likes some shade	.75
COTULA Squalida (2") A dainty fine cut fern-like creeper. Excellent for cover for choice small bulbs. Likes moisture	.50
CYMBALARIA Pilosa (Kenilworth Ivy) (2") Tiny lilac snapdragons on trailing ivy-like vines. Ground cover ..	.50
DIANTHUS Pinks are indispensable for the sunny, poor spots. Their showy and fragrant blooms are always a joy. They appreciate a bit of lime from woodashes or ground limestone.	
Alwoodi (8") Lovely hybrid pinks in all shades of rose and pink, with darker centers	.50
Arenarius (8") Fine airy fringed flowers on tall wiry stems. July	.50
Atrorubens (6-9") Large flowers in a head of bloom over grassy mounds. From the Alps of Europe. Crimson scarlet	.50
Brevicaulis (3") High alpine. Close tight mat, and rose-mauve flowers with yellowish reverse	.50
Caesius Splendens (6") A variety of Dianthus Caesius well worth having	.50
Deltoides (Maiden Pink) (10") Rose pink masses of bloom cover the low cushiony plants in July	.50
Deltoides Alba (6") Pure white form of above. Excellent contrast	.50
Deltoides Brilliant (10") Deep crimson form of the maiden pink. Very showy and valuable	.50
Fragrans (6") Very fragrant bright pink. June-July ..	.50

Myrtinervius (3") A jewel-like alpine pink with scalloped deep pink petals on the abundant blooms	.50
Neglectus (3-4") Tight tufts of grassy foliage. In June covered with large deep pink blooms, buffy pink on the reverse. Choice and lovely. No lime. Sun	.50
Neonus (8") A rare and unusual pink. White lacy blooms on very slender stems in August	.50
Peristeri (1") Low mats of fine foliage, and profuse small pink flowers all season. Choice	.50
Plumarius (Old-fashioned Spice Pinks) (8") Well remembered is the spicy old-time fragrance of these profuse double pink blooms. Solid blue gray clumps of grassy foliage	.50
Roysi (3") Hybrid of Neglectus. Bright pink flowers all summer	.50
Subacaulis (1") Carmine flowers in June. From the Alps	.50
Tiny Rubies (4") Tiny double pinks sprinkling the gray green mounds of foliage are so aptly named. Choice	.50
Waitham Beauty (6") Crimson pinks of great beauty. Originated in Canada	.50
DICENTRA Formosa (12") A western native dwarf Bleeding Heart. Rose pink hearts in clusters all summer. Semi-shade and moist	.50
Sweetheart (6") The lovely pure white dwarf Bleeding Heart. Choice. Easy in part shade	.75
DORONICUM Caucasicum Magnificum (10") Showers of large yellow daisies in May. Not too large for the rock garden. Very easy	.50
DRABA Mountain plants of easiest culture, and great appeal. They like crevices in the rock and full sun.	
Aizoon (6") Small pale yellow flowers over large rosettes. Lime	.50
Fladnyzensis (4") Beautiful white flowers in early spring. Easy	.50
Olympica (4") A very choice and beautiful rock plant with delightful tight cushions of fine green foliage, and clear yellow blooms on short stiff stalks. Early spring. Easy. Sun and good drainage	.50
Siberica (4") A very nice early bloomer. Showers of spring yellow cover the green spreading mats in May. Easy and very good in sun	.50
DRACOCEPHALUM Tanguticum (12") A fine blue accent plant that likes to stay at home. Part shade. July-August	.50
DRYAS Charming alpine ground covers for open, well-drained situations. Interesting large flowers and fluffy seed heads.	
Octopetala (4") Really a prostrate alpine shrub making a fine ground cover of elongated small oak-like leaves, and sending up beautifully shaped open stars of creamy white. Sun and ordinary garden soil	.50
EPIMEDIUM Most decorative foliage and pretty dancing, spurred flowers. Give them shade and plenty of humus.	

Alpinum Rubrum (10") Red flowers. Fine foliage	.75
Lilaceum (10") Lilac pink flowers	.75
Niveum (10") Pretty little butterfly-like flowers in clusters above the decorative foliage. Choice!	.75
ERIGERON Simplex (8") Lavender pink native of the Rockies. Flowers similar to single asters. Sun and ordinary soil	.50
ERINUS Alpinus (3") Purple	.50
Alpinus Dr. Hanelle (3") Purple red. May to July on fine green tufts. Extra choice	.50
Alpinus Mrs. Charles Boyle (3") Exquisite in leaf and flower. A great rock garden plant. Large pink	.50
ERYSIMUM Kotschyanum (6") Mass of golden flowers. Charming	.75
Pumilum (10") Yellow masses of long lasting flowers. Easy in sun	.50
EUPHORBIA Epithmoides (15") May brings the happy combination of spring green and lemon yellow bracts. Very showy and easy	.50
GERANIUM Geraniums are easy and hardy subjects for sun or part shade. The showy blooms come in exciting colors and the blooming period is long. Any soil.	
Dalmaticum (8") Large bright pink flowers on trailing stems. Rare	.75
Endressi (10") Beautiful rose flowers in mid-season	.50
Grandiflorum (12") Blue saucer shaped flowers for a long time	.50
Lancastriense (6") One of the most beautiful geraniums. Low growing and fine leaved. Lovely shell pink flowers	.75
Macrorrhizum (10") A compact geranium with pink flowers. Recommended	.50
Maculatum (15") Mid-summer blooms of light purple	.50
Maculatum Album (15") A beautiful white flowered form	.75
Pylzowianum (6") From Tibet. Flowers beautiful and pure clear rose. Rare and choice	.75
Sanguineum Album (8") White compact form of Sanguineum	.75
GEUM Borisi (10") The Balkans have given us this hardy orange scarlet variety	.50
Bulgaricum (12") Flame orange flowers over large leaves in July. An easy and permanent Geum	.75
Fire Opal (15") A new Geum with typical foliage and flaming red flowers	.50
GLOBULARIA Vulgaris (12") Unusual and interesting. China blue globular heads of bloom on wiry stalks over the low mats of strap leaves. Easy	.50
GYPSOPHILA Repens Rosea (2") Rosy pink blooms in quantity in July. A sturdy perennial; a beauty for the wall garden, or over a large rock face	.75

HELICHRYSUM Plicatum (8") Hairy foliage, soft and gray, throws up large flat heads of clearest yellow blooms. Unusually nice	.50
HEUCHERA The Coral Bells are hung in numbers at the top of tall wiry stems springing from ornamental tufts of leaves at the ground level. Always decorative.	
"Best Pink" (15") This unnamed variety of Coral Bells is the best and largest pink we have. Very prolific	.75
Perry's White (15") Choice. Creamy white clusters of bells	.75
Plue de Feu (15") Bright red bells in profusion all summer. Choice	.75
Rosamondi (15") Rose pink blooms	.75
HIERACIUM Bombycinum (6") Its woolly foliage is dense and charming, and the large yellow flowers in July are just right. Not a spreader	.50
HOSTA Caeruleum (10") The old time Plaintain Lily. Tall racemes of light blue bells	.50
HUTCHINSIA Alpina (3") A tiny carpenter from the Alps. Tufts of tiny dark green frilly leaves, and masses of white flowers. May	.50
HYPERICUM Rhodopeum (8") Gray leaved with glossy gold flowers. Blooms a long time	.50
IBERIS Shrubby evergreen mats with great displays of late spring bloom.	
Little Gem (6") A compact white flowering dwarf. Late flowering	.75
Sempervirens (10") The standard perennial Candy-tuft. Indispensible white display in June	.75
Snowflake (8") White mats of showy flowers in June	.75
IRIS The dwarf Iris is of the right stature for the rock garden. All are hardy and easy.	
Cristata (5") Soft blue native of the Blue Ridge Mountains. Very fine and perfectly hardy	.50
Verna (4") Attractive grassy foliage with amethyst blue flowers. From the Southern mountains	.50
JASIONE Perennis (8") Nice fluffy balls of blue in profusion, from the low mats of hairy leaves. Easy in sun	.50
LAMIUM Maculatum (12") A member of the mint family. An interesting plant for the larger rock garden and easy to grow. The flowers are purple blue and numerous; the hummingbirds love them	.50
Maculatum Album (12") The beautiful white flowered form of this good ground cover. The hummingbirds love it.	.50
LYCHNIS Easy old fashioned flowers, but very showy. Any soil.	
Alpina (4")... A fine true alpine producing, above its little compact tufts, rosy heads of Lychnis stars in June	.50

Viscaria Fl. Pl. (12") This is a double form and a great improvement. The intense cerise pink wands of bloom come in July. Easy to grow in a sunny spot. Very good	.50
NEPETA Mussini (10") A mass of lavender flowers in spring. Good gray green foliage all season. Easy in dry sunny spot	.50
OENOTHERA Riparia (12") Red buds open to large evening primroses of yellow. All season	.50
PENSTEMON Western Americans of great charm; their chief requirement is very good drainage. Give them a south-facing sunny slope of gravel and leafmold, or peat, and they are happy.	
Tolmiei (5") Dwarf; mats; dark blue flowers	.75
Procumbens (6") Low, slender leaved native of Colorado. Large violet rose flowers. Lovely in cascades	.75
PHLOX A very easy genus of plants, and essential to the spring rockery. Of easiest culture in any soil. Sun and good drainage.	
Divaricata (12") Lovely light blue waving heads. Perfect for that spring garden. Light shade	.50
Divaricata Alba (10") White form of the beautiful blue Phlox. Best in part shade. May flowering	.75
Procumbens (Amoena) (6") Easy and extra fine. Early. Rose colored. Sun	.50
Subulata Apple Blossom (6") A most appealing blush pink Phlox; profuse in blooming	.50
Subulata Arbutus (4") Lovely pale pink flowers suggestive of the color of arbutus. Not a spreader	.50
Subulata Atropurpurea (4") A nearly true red color. Best of its shade	.50
Subulata Blue Hill (8") The nearly true blue Subulata	.50
Subulata Intensity (4") New. Bright cerise on evergreen mounds	.75
Subulata Katherine Freeman (6") A lovely variety in pure pink with deeper eye. Vigorous and easy	.50
Subulata Scarlet Flame (6") A new and intense color of Subulata	.50
Subulata Sneewichen (4") A choice and dainty "stay-at-home," with small pure white flowers in profusion	.75
POLEMONIUM Blue Pearl (10") An easy and prolific standard rock garden subject. The clear blue flowers are on long pendant stems over fern-like foliage	.50
Delicatum A soft blue flowered alpine. Give sun and sandy loam	.75
Haydeni (4-10") Fern-like foliage and saucer shaped blue flowers with white throats. Choice	.75
POTENTILLA Interesting plants of easiest culture, and requiring lots of sun with good drainage.	
Aurea (5") Green tufts. Clear yellow flowers. June-August	.50
Fruticosa (15") Permanent shrublets with continuous golden flowers in profusion	.75
Pyrenaica (6") A yellow beauty from the Pyrenees	.50
Verna Nana (2") Tiny carpeter with golden flowers all summer	.50

PRIMULA Primroses require shady conditions with lime in the soil, ample moisture, and plenty of humus. The range of color is most beautiful and varied. There is nothing finer for spring bloom.	
Acaulis Harbinger (Barnhaven strain) White stars	.50
Acaulis Talisman (Barnhaven strain) Pink, apricot and bronze shades	.50
Acaulis Springtime (Barnhaven strain) Mixture of many colors	.50
Auricula Garden Mixed Fascinating leathery leaved plants of great charm even when out of bloom. Shade and lime.	
Barnhaven Strain In shades of blue, red, yellow, purple, and the smokies	.50
Sky Hook Strain In shades of blue, red, yellow, purple, and the smokies	.50
Japonica Mixed (Sky Hook Strain) Japonicas are tall orientals with wonderfully showy candelabra heads of bloom. For shady wet locations with limed soil. Easy and beautiful	.50
Juliana Wanda (Sky Hook Strain) Dainty plants with quantities of shocking red purple flowers. May-June	.50
Polyanthus Desert Sunset (Barnhaven strain) Include coral, salmon, apricot, desert rose	.50
Polyanthus Indian Reds (Barnhaven strain) Include velvet vermillion, crimson, Chinese and cherry reds	.50
Polyanthus Marine Blues (Barnhaven strain) Include sky blue, delft, Prussian, cobalt, etc.	.50
Polyanthus Violet Victorians (Barnhaven strain) Include wood violet, plum, royal purple, red plum, orchid, and lavender	.50
Polyanthus Winter White Large snow white with golden centers	.50
PRUNELLA Vulgaris Alba (8") A fine white form of the common wildling. Rare	.75
PULMONARIA The lungworts are handsome foliated ground covers for a shaded and damp spot. Either attractive wavy green leaves; or long, pointed and silver-splotched leaves. Lovely pinky blue nodding bells in early spring.	
Azurea (10") A plain green leaved variety with salmony pink flowers	.50
Lutea (8") Lemon yellow drooping bells	.75
Saccarata Mrs. Moon (10") White-spotted leaves, and pink to blue flowers	.50
RANUNCULUS Repens Fl. Pl. (6") Extremely double yellow buttercups in July. A good ground cover.	.50
SALVIA Pratensis Rosea (18") A fine perennial with plentiful rosy spikes in July	.50
SAXIFRAGA Myriads of species from the temperate and arctic zones form one of the most important groups for rock gardens. The encrusted group is easy if given a limy soil, with sharp drainage and a bit of noonday shade. Most others like more shade.	
Aizoon (10") Cream colored flowers; encrusted rosettes. Easy and typical rock plant	.50

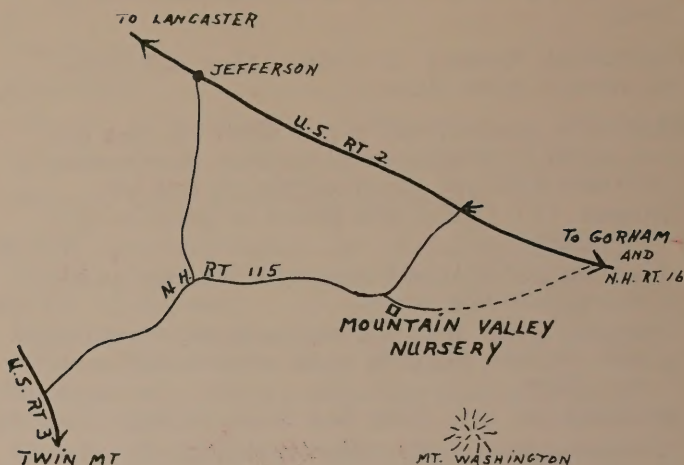

Aizoon Rosea (6") Pink form of Aizoon. Vigorous and beautiful at any season	.50
Aizoon Lutea (6") Yellow flowered form of Aizoon	.75
Allioni (3") Compact. White flowers. June. Requires shade and moisture	.75
Altissimum (15") Encrusted rosettes send up branching heads of long lasting white blooms	.75
Longifolia (15") One of the largest of the saxifrages. Tight rosettes of silvery-edged leaves send up large open heads of white bloom in June. Easy. Lime and sun	.75
Macnabiana (12") Red-spotted white petals and broad encrusted rosettes	.75
Marginata (6-10") Creamy white plumes of bloom. Plants encrusted with lime	.75
SCABIOSA Alpina (10") A lavender pink alpine Scabiosa	.50
Lucida (6-9") Feather cut foliage and pinkish flowers	.50
Scabra (9") Lavender heads above ample mats of deep green foliage all summer. Rare. Sun and well drained	.50
SCUTELLARIA Alpina. Abundant whorls of large hooded flowers of violet with white lips. In the mint family and an easy alpine. Light soil and sun	.50
SEDUM For the dry rock garden the sedums are indispensable. They will fill the impractical spots where other plants would refuse to grow. A bit of lime is appreciated.	
Amplexicaule (2") The plants turn to curious oat-like clusters in summer and turn green in autumn. Yellow flowers	.50
Anglicum Minus (1") Very small Sedum. Flowers white in July	.50
Bithnicum (2") Blue green mossy carpenter of great charm	.50
Cauticulum (4") Rare and beautiful purplish gray foliage. Red flowers	.75
Dasiphyllum (1") Tiny and choice. Glaucous fat leaves and myriads of pink stars	.50
Divergens (7") Yellow blooms on interesting tiny fat-leaved plants	.50
Ewersi (8") Rosy colored flowers in mid-season. Gray foliage. Sun. Lime	.50
Ewersi Homophyllum (2") Dwarf form of Ewersi. Odd	.75
Glaucophylla (10") Yellow flowers in abundance	.50
Globosum (4") Tiny fat globular leaves. Interesting. Yellow	.50
Jepsoni Fleshy purplish leaves; sprays of golden flowers. Rare	.50
Kamschaticum (6") Orange flowers in July	.50
Kamschaticum Variegatum (8") Mottled foliage in green, yellow and pink. Golden flowers	.50
Leibergi (4") A rare western Sedum with yellow flowers in open cymes. Likes some shade	.50

Lydium (3") The prettiest bronze green moss imaginable. Flat heads of pink flowers. Does best in part shade	.50
Middendorffianum (8") One of our favorites of the Sedum family, and always colorful of leaf and flower. Blooms deep yellow in July. Non spreader	.50
Monregalense (4") White flowering and fine	.50
Murale (4") A choice Sedum with flat purplish leaves and white flowers with pink centers	.50
Nevi (4") Brownish green foliage and white flowers in three-parted rays	.50
Nicaeense (6") A heavy green moss with bright yellow heads of bloom	.50
Reflexum Cristatum (12") Large heads of yellow stars form over peculiar cockscomb masses of greenery. Odd and beautiful	.50
Seiboldi (3") Attractive rounded gray green leaves with red edges. Flowers pink in late summer and fall	.75
Sexangulare (4") Such a mass of green moss and it covers itself for a long time in mid-summer with millions of greenish yellow stars. Beautiful	.50
Spectabile Brilliant (18") Huge heads of crimson blooms on showy and stocky gray foliaged plants. Beautiful in the border, or large rock garden. Easy	.50
Spurium Flat pink heads of bloom form in summer over mats of flat green leaves	.50
Spurium Coccineum (Dragon's Blood) (4") Vibrant carmine red in August. Striking color. Easy in sun	.50
Stenopetalum (3-4") American. Dense leaf growth and sprays of pinkish white flowers	.50
Ternatum (6") Flat leaved spreading gray green plants with triangular heads of typical Sedum stars in white	.50
Waight Hybrid A distinct and different variety. The leaves are very gray, almost white. Flowers white. A gem	.75
SEMPERVIVUM (Hens and Chickens) As a group the "hens and chicks" add a charm of unique beauty. The matted foliage, changing with the weather and different soils, is always interesting and the peculiar star shaped flowers are most unique. Perfectly hardy and easy.	
Alpha Medium sized. Extra tight growth. Rosy	.50
Alpina	.50
Arachnoideum The cobweb "hen and chick." A treasure for its gray webbing when in full growth. Nice bright pink flowers	.50
Calcareum Medium sized. Green and red combination	.50
Celon Bronzy red and medium sized. Good	.50
Globiferum Medium sized. Green. Tiny globular chicks. Shades of red in winter	.50
Malby's Hybrid Large English hybrid. Very good	.50
Mitchell's Hybrid Beautiful and choice combination of red and green	.50

Plush Carpet	Small. Fascinating colors in mossy greens and reds. Very fine	.50
Powellii		.50
Pyrenaicum		.50
Rubicundum		.50
Silverine	Large. Silvery green. Gorgeous	.50
Spinosum	Extra choice. Spiny cushions	.50
Tectorum	Large. Green with reddish edge	.50
SILENE Acaulis Pedicularis	(2") One of our first loves. Dainty and yet hardy. Rose pink flowers just above the foliage all summer	.50
Alpestris	(6") Panicles of exquisitely dainty white flowers. May to August. Alps. Sun	.50
Maritima	(4") Glaucous foliage and many large white flowers in July	.50
Wherryi	(6") Large flat truly pink flowers on compact plants	.75
SISYRINCHIUM Brachipus	(6") Large yellow flowers on miniature iris-like plants. From California	.50
THYMUS	Beautiful fragrant ground covers in great variety. Like it hot and dry and a lean soil. For stepping stones, terraces, and the rock garden.	
Adamovici	Rare, low growing creeper. Rosy heads of bloom. It is fine for walks and terraces, or choice in the rock garden	.50
Argenteus	(6") Shrubby. Leaves with silvery borders. Different	.50
Balticum	(6") A ground cover of great excellence. Lavender flowers	.50
Citriodorus Aureus.	(4") (Lemon Thyme) Lemon scented leaves. Lavender flowers	.50
Doeffleri Minus	(2") A dwarf creeper. Purple red flowers. June-July	.50
Ericaefolius	(4") Tiny shrublets of golden tinted foliage, with red flowers in mid-summer. Rare	.75
